

USG-USAID VETTING CONSENT FORM

U.S. Agency for International Development (USAID) requires vetting of individuals and organizations in connection with its review and approval of any funded Awards and Subawards to a proposed U.S. or non-U.S. recipient in excess of \$25,000. As such, any individuals or organizations receiving USAID funded contract, subcontract, grant, cooperative agreement, or subgrant, including organizations Key Individuals, will be subject to vetting. To comply with USAID's vetting requirements, Blumont hereby requests that you share the required information outlined in the attached vetting form (PIF).

By signing this Vetting Consent Form, you authorize Blumont to collect vetting data from you and to submit it to USAID for processing. You have the right to request that Blumont destroy your vetting data at the conclusion of your subcontract or sub-grant. Blumont will use the vetting data in accordance with the Privacy Act Statement found on page 7 of the PIF. All Blumont employees that deal with vetting documentation and any other confidential information will strictly adhere to Blumont standards on protecting proprietary and confidential information related to Personally Identifying Information (PII), as outlined in Blumont's Standards of Conduct. Given that the vetting documentation contains such PII's, Blumont will strictly limit access to vetting information and documentation to USAID and State Department only. All PIFs and USAID eligibility determination letters will be stored in a secure electronic system that will only be accessible to designated data entry officers and certifying signatories. Hard copies of PIFs will be immediately destroyed after submission to USAID or other U.S. Federal Agencies.

By signing this Vetting Consent Form, you authorize Blumont to collect vetting data from you and to submit it to USAID or other U.S. Federal Agencies, as applicable, for processing in order to obtain eligibility clearance to receive Federal Funds.
